

VIBRATIONAL NUMBERS

F.A.Q.

Q1. What are vibrational numbers?

Answer: Vibrational numbers are a sequence of numbers that are calculated based on your **DAY** and **MONTH** of birth. These numbers are representatives of your unique vibrational signature frequency.

Q2. How are the vibrational numbers calculated?

Answer: These numbers are determined from a complex calculation. Basically, it is adding and subtracting and a bit of reducing, and multiplication if required. Some of you will have 4, 5 to 6 numbers. I calculate these numbers on the **DAY** and **MONTH** of your birth. The **DAY** and **MONTH** of your conception. That is the time, you were being prepared but not physically born yet. You were conceived to be created. The stars, planets and sun were all at particular momentum orbit; what is known as space time. That means at that particular time, you had a certain energetic high number associated to you. The reason why the **HOUR** and **YEAR** is not important because once you have the **DAY** and **MONTH**, the calculation becomes easily more precise and it is less time. A month is 30 days and a year is 365 days. The hour goes in seconds and minutes so it will be complicated. I do the numbers to a *specific calculation* so it is more accurate and you get better results. What I also do is incorporate **master numbers** as well.

Q4. What are master numbers?

Answer: Master numbers are determined from numerology which is the science of numbers. I incorporate master numbers to raise each individual's energies or vibrational energy to a higher level.

They are **8, 10, 22, 33, 44** and **11**. These are universal numbers. That means they vibrate intensely at a vibrational frequency in line with money.

Q5. Can my vibrational numbers change over time?

Answer: When I calculate your numbers, these numbers can change depending on the frequency you are emitting. Keep in mind, once you start to open your subconscious mind, you will realise the gifts and abilities, you have. One of my gifts is that I am very sensitive to energies around me. I could pick up people's energy; I can help raise people's vibration; I can even help people manifest their desires. Basically to make the story short, somebody has low energy, I can help elevate their energy, I can help them. I can basically make somebody believe that when they don't believe in their own self. That is the gift that I have. When I pick up energy, what I do your numbers, I am feeling your energy emittance at that particular time. and I will give you the numbers

Q6. Can I get vibrational numbers from you again?

Answer: At this time, it is better to stick to the first set of vibrational numbers that were given to you and focus on them.

Q7. How did you create the method to calculate vibrational numbers?

Answer: I use the four energy dynamic forces of the universe or otherwise known as the EDF. The first is **Energy**, second is **Vibration**, three is **Frequency** and fourth is **Magnetism**. The universe and everything else is made up of energy. And energy is vibrational frequencies, electromagnetic frequencies and magnetism. I calculate this numbers based on day and month of birth because mathematics is the universal language of the universe.

Angels communicate to us through numbers or synchronicity and numbers carry really unusual high frequencies. These numbers are energies are just like anything else, Numbers vibrate at a high energy, They vibrate along the same lines as money. The lottery system uses numbers to attract to tickets. They use numbers to win tickets. These numbers are no coincidence then these numbers are there for a reason.

I have used vibrational numbers for four years. I first started it as a theory and then when i started to win, and i knew it was working. According to Quantum Mechanics, everything in the universe is energy; it has vibration frequencies and signatures

Q8. How do I use them to play in lottery numbers

Answer: Play those numbers only if you feel confident and good about it. The vibrational numbers won't work if you aren't emitting high positive energies.

Q9. Can I request numbers for a family member or a friend?

Answer: Yes, you may but only you can play those numbers for them. They can't. When you asked for their vibrational numbers, Mark is responding to the energy emittance of yourself as well.

Alternatively, you can get them to come and join our group and put a request for the numbers themselves.

Q10. Do vibrational numbers change if someone dies?

Answer: Yes, the vibrational numbers change once the body wears old and dies but the soul lives on but will emit a different vibrational frequency.

Q11. If someone has the same birthday as me, would we share the same vibrational numbers?

Answer: No, both of you won't have the same vibrational numbers given. Every individual emits an unique energy frequency at the time, as Mark responds to and uses it for calculation.
